

## NACwall Appliances Data Sheet

### **Most of your network “Copper” is not protected:**

- Do you know who is on your network at all hours?
- Can you totally control network access with the click of a mouse?
- If a criminal hacked your wireless router would you know?

***Most ethernet ports can be accessed by anyone at anytime.***

### **Don't believe the hype about Agent-based NAC and “dissolvable agents”?**

**We've solved these problems with our patented NACwall appliances:**

- Command Center to Control Remote Branch Appliances (available in Enterprise units)
- Agent-less EasyNAC Blocking Engine
- Dynamic Detection System with IP and MAC Spoof Protection
- Built-in CVE® Certified Auditing Engine
- Powerful Reporting Engine with CSV, PDF, HTML, XML, Syslog, SNMP Trap and Email
- ISO 27001 Policy Tool (available for a limited time in Enterprise units, a \$40k USD value)

## A PLUG-AND-PLAY IT SECURITY AND COMPLIANCE SOLUTION

# NACwall® Appliances

### Simplified, Patented Agent-less Network Access Control (NAC)

- Deploys in minutes without the need for client software
- Works with existing network and legacy infrastructure – no need for expensive upgrades
- Document end-user policies for regulatory compliance initiatives
- Harden endpoints to reduce the risk of data leakage and successful zero-day attacks
- Alert and block against suspicious users, malicious insiders and rogue wireless devices
